

ABHISHEK KUMAR SAH

Mob No: +917008050145

Email-Id: abk8406@gmail.com

Current Location: Bangalore, KA

Native Location: Chhapra, Bihar

CAREER OBJECTIVE:

Dedicated Angular Developer with 3+ years of experience in designing and implementing dynamic web applications. Proficient in modern front-end technologies, with a strong focus on user experience and performance optimization. Proven ability to collaborate effectively with cross-functional teams to deliver high-quality software solutions.

PROFESSIONAL SUMMARY:

- Experienced Angular Developer with 3+ years of hands-on experience in building dynamic and scalable web applications using Angular, React, TypeScript, and modern front-end technologies.
- Deep knowledge of web application design and development with a focus on creating rich, custom user interfaces.
- Extensive understanding of the full application development lifecycle, including MVC architecture, modular structuring, and workflows — from scratch to production deployment.

Work Experience:

RIM INDIA Private Ltd, Bangalore, July 2023 – Present

Designation - Software Engineer

Project: TITAN Nunxtwav (nunxtwav.titan.in)

Technologies: Angular 10, Bootstrap, HTML5, CSS3, Chat JS, Typescript, Java, MSSQL.

Team Size: 4

Description: This application focuses on rising service requests for the inventory through the hierarchy of store, vendor, regional head and etc. with separate portals for each role.

Roles and Responsibility:

- Developed and optimized Angular applications, significantly enhancing client satisfaction by delivering a user-friendly and efficient product that exceeded client expectations.
- Collaborated with the back-end development team to build a RESTful API, improving the overall performance of the application and reducing load times by 30%
- Optimized application performance by implementing lazy loading, code splitting, and other best practices.
- Agile Development & Documentation: Actively contributed to sprint planning, UI/UX discussions, code reviews, and documentation to ensure seamless front-end development, user-friendly interfaces, and clear integration with API endpoints.
- Implemented Web Security Best Practices: Identified and mitigated security vulnerabilities such as SQL Injection, Cross-Site Scripting (XSS), Cross-Site Request Forgery (CSRF), and security misconfigurations, ensuring compliance with OWASP guidelines across all applications.

Project: TITAN EYEWEAR (titaneyewear.co.in)

Technologies: Angular-18, Bootstrap5, HTML5, CSS3, MDB Bootstrap, Typescript, Node.js, MongoDB

Description: This application focuses on building a sales and billing system for eyewear through a hierarchy of distributors, dealers, and field sales officers of the separate portals for each user.

Roles & Responsibility

- Implemented secure authentication and role-based access control, allowing only authorized users (customers, vendors, admin) to access sensitive data like payments, profiles, and orders.
- Agile Development & Documentation: Actively contributed to sprint planning, UI/UX discussions, code reviews, and documentation to ensure seamless front-end development, user-friendly interfaces
- Implemented Web Security Best Practices: Identified and mitigated security vulnerabilities such as SQL.

Startupway24 IT Services Pvt Ltd, Delhi, Sep 2022 – July 2023

Designation – Junior Software Engineer

Project: SOLINAS INTEGRITY

Technologies: Angular 13, Bootstrap5, HTML5, CSS3, MDB Bootstrap, Typescript, Node.js, MongoDB

Description: It's a clinic management and online consultation software featuring four distinct user flows: Admin, Inspection Lead, Chief Engineer, and Area Engineer, each with role-based access. The admin oversees project flow management, while the platform streamlines the organization of pipelines, manholes, and septic tanks, enabling efficient solutions and data-driven decision-making.

Roles and Responsibility:

- Developed and maintained user interfaces using Angular to ensure a smooth and responsive user experience across different devices.
- Collaborated with senior developers and back-end teams to integrate role-based access controls for Admin, Inspection Lead, Chief Engineer, and Area Engineer.

TECHNICAL SKILLS:

Programming Languages & Frameworks

- JavaScript (ES6+), TypeScript.
- HTML5, CSS3, Angular (multiple versions: 10, 13, 18), Ionic, React.js, Node.js, MongoDB.

Cyber security

- Secure coding practices, OWASP Top 10, Authentication & Authorization (JWT, OAuth), Data encryption & security best practices.

Tools & Libraries

- Libraries & Version Control: Bootstrap-5, MDB Bootstrap, Angular Material, 3rd party libs & Git, SVN
- Package Management: NPM, NPX

CERTIFICATION:

Angular Developer and **Web Designing** Training at **Naresh IT Software Training Institute, Hyderabad** from May 2021 to April 2022.

EDUCATIONAL QUALIFICATIONS:

- Completed **B.Tech** from **BPUT, Rourkela, Odisha**, in **2022**, achieving **70%**.
- Completed **Diploma** from **SCTE & VT, Odisha**, in **2018**, achieving **66%**.
- Completed **Intermediate of Science** from **BSEB Patna**, in **2015** achieving **61%**.
- Completed **SSE** from **BSEB Patna**, in **2013** achieving **63%**.

PERSONAL DETAILS:

Name: Abhishek Kumar Sah
Father Name: Mr. Sachichida Nand Sah
Date of Birth: 15th Sep 1998
Permanent Address: Deoria, Rivilganj, Chhapra(Saran), Bihar, 841213
Languages are known: English, Hindi, Odia.
Hobbies: Playing Cricket, Watching Football.

DECLARATION:

I hereby under take that all the information furnished above is true to the best of my knowledge & belief.

Place: Bangalore
